Institutional Review Board

Minutes 12/10/10

Present: Tommie Hughes, David Allard, Shirley Garick, Gaynell Green & Jim Harbin

Called to Order 1:00 P.M.

The committee met to consider application by Lisa Watson for project Evaluation a Webquest Learning about Violence with a Webquest. The project was seen to have minimal risk, but due to participants being children it was reviewed by the committee as a whole. Shirley Garick moved to approve and this was seconded by David Allard. Approval was unanimous.

Also considered was the application of Lone Engledowl – Impaired Practice: Nursing Perspectives on Peers Who Abuse Substances. The project required review of the full committee because of information requested of participants that could be sensitive in nature and have the potential to harm participants. The committee approves your project contingent on your accomplishing four tasks; 1) Remove question 4 from the survey, 2) Do not gather data in a group setting, 3) Edit the consent form (Dr. Garick has specific information on required edits) and separate the consent form from the collected data to insure participant privacy, and 4) provide the IRB Chair with a copy of documentation of Human Participant Training. The committee approved the project pending completion of these tasks. Dr. Garick will assure that these changes have been made.
