History of TRIO

The TRIO education programs emerged out of the Economic Opportunity Act of 1964, which was passed in response to the administration's War on Poverty. Upward Bound was created in 1964, and was followed in 1965 by Talent Search, a second outreach program created as part of the Higher Education Act. In 1968, Student Support Services was authorized and funded by the Higher Education Amendments. By the late 1960's, the term "TRIO" was coined to describe these three federal programs.

There are currently 8 TRIO federal programs: Upward Bound, Talent Search, TRIO Student Support Services, Educational Opportunity Centers, Veterans Upward Bound, Training Programs for Federal TRIO Programs Staff, Ronald E. McNair Post-Baccalaureate Achievement, and Upward Bound Math-Science.

TRIO Student Support Services (SSS) at Texas A&M University-Texarkana was founded in the Fall semester of 2015 with an annual budget of \$220,000 to service 220 eligible participants annually. We are currently serving 140 participants with an annual budget of \$261,888.

Federal Educational Rights and Privacy Act (FERPA)

This federal law protects the rights of matriculated students at post-secondary institutions, regardless of age, in regards to their educational records. The Act grants four specific rights to students:

- The right to inspect their education records
- The right to seek to amend their educational records if they believe them to be in error
- The right to consent to disclosure of their records
- The right to file a complaint with the FERPA office in Washington

In compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), A&M- Texarkana gives notice that the following directory information may be made public unless the student desires to withhold the information.

Directory Information Includes:

- Students full name
- Addresses- local, permanent

- Telephone listings- both local and permanent
- Date and place of birth
- Major field of study
- Participation in officially recognized activities and sports
- Photograph
- Dates of Attendance
- Degrees and awards received
- Full or part time status
- Enrollment status (Undergraduate, Graduate, classification, etc)

Prevent Disclosure of Directory Information

Any student who objects to the release of directory information must notify the Registrar's Office in writing by submitting the "Request to Prevent Disclosure of Directory Information" form that he or she does not wish to have such information released. This request will be honored, and all of the information will be held confidential. Texas A&M University-Texarkana and the Office of the Registrar will exercise discretion in the release of all directory information.

Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. The name and address of the office that administers FERPA is Family Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-4605.

Certification of Dependency

Under provisions of the Family Educational Rights and Privacy Act (FERPA), students enrolled in post-secondary educational institutions are deemed to “own” their educational records. Institutions may, but are not required to, grant access to certain non-directory information in a student's educational record if the student is claimed as a dependent on his or her parent's/guardian's federal income tax return. Generally non-directory information will not be released to a parent or guardian unless a Certification of Dependency Form is completed and signed by the parent(s)/guardian(s) and the student and is submitted to the Office of the Registrar.

Questions

Questions concerning the Family Educational Rights and Privacy Act (FERPA) may be referred to the Registrar's Office located in the Building for Academic and Student Services, or email registrar@tamut.edu, or call 903-334-6601.

Student Conduct

Academic Integrity

Academic honesty is expected of all students enrolled at Texas A&M University-Texarkana. Cheating on examinations, unauthorized collaboration, falsification of research data, plagiarism, and undocumented use of materials from any source constitutes academic dishonesty and may be grounds for a grade of 'F' in the course and/or disciplinary actions without the option of dropping or withdrawing. The university defines plagiarism as "taking and using as one's idea the writing, invention, expression, or ideas of another person."

Student Honor Code

Texas A&M University-Texarkana expects high standards that include academic honesty, personal integrity, and ethical, academic behavior of all its students. Reverence, relentless curiosity, and a willingness to participate are essential qualities of an emerging scholar, and the university encourages these qualities. A student's personal integrity, ethical behavior, and sense of honor contribute to a respectful and positive academic climate allowing all students to develop as scholars and reach their greatest academic potential. Since students are responsible for maintaining an academic climate based on trust and respect, they should report any activity threatening a climate conducive to learning to an instructor or administrator.

Student Code of Conduct

Students must respect each others rights. These rights include respect for personal feelings, freedom from indignity of any type, freedom from the control of others except as may be in accord with published rules and procedures of Texas A&M University-Texarkana or the Texas A&M University System, and conditions that allow the best use of time and talents toward educational objectives. No officer or student, regardless of position or rank, shall violate these rights; the university will allow no custom, tradition, or regulation in conflict with these rights to prevail. At all times, students must recognize constituted authority, conform to the ordinary rules of good conduct, maintain honesty, respect the rights of others, protect private and public property, and make the best use of time toward the completion of an education. The "Code of Student Rights and Responsibilities" (Code) is neither exhaustive nor does it encompass all possible relationships between students and the institution. The "Code" is not rigid or unchangeable. As the relationship between students and the university grows, authorities may modify the "Code."

Students should know and observe university rules and procedures. Ignorance of these rules and procedures does not excuse students from adherence to them. Students may find additional information on the Student Conduct website.

Title IX

The U.S. Department of Education's Office for Civil Rights (OCR) enforces, among other statutes, Title IX of the Education Amendments of 1972. Title IX protects people from discrimination based on sex in education programs or activities that receive Federal financial assistance. Title IX states that:

No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

Title IX applies to institutions that receive federal financial assistance from the Department of Education, including state and local educational agencies. Educational programs and activities that receive Department of Education funds must operate in a nondiscriminatory manner. Some key issue areas in which recipients have Title IX obligations are: recruitment, admissions, and counseling; financial assistance; athletics; sex-based harassment; treatment of pregnant and parenting students; discipline; single-sex education; and employment. Also, a recipient may not retaliate against any person for opposing an unlawful educational practice or policy, or made charges, testified or participated in any complaint action under Title IX. For a recipient to retaliate in any way is considered a violation of Title IX.

Sexual Misconduct

Sexual misconduct is a violation of university standards of conduct for students, faculty, staff, and the university community as well as a violation of the law.

Sexual misconduct includes, but is not limited to, forcing, threatening to force, coercing, or deceiving another to engage in sexual activity or engaging in sexual activity with another knowing that the person does not want to engage in the activity, feels the activity is offensive, or is unable to assess the nature of or control the conduct.

Sexual misconduct also includes engaging in sexual activity with another when that person has impaired judgment or control due to drugs or other intoxicants.

Engaging in sexual conduct without consent is a serious offense; furthermore, the person may withdraw such consent, whether verbal or non-verbal, at any time without regard to activity preceding the withdrawal of consent.
