STUDENT SUCCESS

SUCCESS CENTER
Our Student Success Center plays a huge role in academic support for students. Success Center tutors are available to help students understand difficult course content, prepare for tests, and build long-term skills. Supplemental instruction is also available, with our tutors helping students succeed in classes that are generally considered the most difficult.

TRANSFER SERVICES
We care. So we created I-CARE (Integrating a Culture of Academic Retention and Excellence) because student success is our priority. The I-CARE program provides comprehensive support services that assist in navigating transfer pathways so that these students may pursue degrees beyond their community college studies.

PATH
The PATH Program is a mentorship program for African-American males and is designed to encourage and support students through guidance and engagement to enhance academic and personal success. Program benefits include an annual scholarship of $1,000, intensive mentorship, career development and networking education, financial literacy skills training, and leadership and communication development.

TRIO
TRIO Student Support Services (SSS) is a federally-funded program to increase the number of under-served low-income students, first-generation students, and college students with disabilities who successfully complete their desired undergraduate degrees. TRIO SSS provides academic and personal support to meet participants’ individual needs, enabling them to persevere and ensure they succeed at A&M-Texarkana. TRIO WORKS!

2+2 AGREEMENT
Texas A&M University - Texarkana takes pride in its relationships with community colleges. We work hard to develop pathways to make it easy for students to transfer from programs offered by these community colleges to programs offered by A&M - Texarkana. We do this by creating 2+2 agreements which map out exactly which courses students need to take to earn their certificate or associate’s degree at the community college, then showing which additional courses need to be taken at A&M - Texarkana to earn their bachelor’s degree. Visit the link below and click on 2+2 agreements to see what 2+2 agreements have been developed. Check back often as we are always working on new agreements and developing relationships with new community colleges.

TRANSFER CENTER
The Transfer Center serves as the academic program liaison between transfer community college/university students and A&M-Texarkana to ensure a smooth transition. The Transfer Center can assist with admissions, financial aid and scholarships, degree evaluation and academic guidance for prospective students, and explanation of 2+2 programs.
